

Simplification / Transmission v2

Objective

Compress the Aziel Framework into clear, ethical, and reproducible principles accessible to all observers without loss of intent.

Essence

"The Aziel Framework measures how truth and harmony align with ethical intent through observable change in order."

One-Paragraph Summary

The Framework operates through six lenses (Lamb, Perception Integrity, Elohim, Aziel, Daniel, Michael) using the formula $F = (H \times E) / (C + D)$. Every action is gated by the Lamb Lens: peace, clarity, and service precede all actions.

Public-Safe Compression Table

Perception → See clearly; Empathy → Act kindly; Order → Reduce entropy; Reflection → Measure change; Stewardship → Prove truth.

Transmission Rules

1. No claim without receipt. 2. No revelation without ethics. 3. Elohim → Aziel → Framework → World → Service. 4. Teach softly, verify loudly.
